Stretch Film / Pallet Wrap Solutions

Hand-Use Stretch Film

11-Layer High-Performance Stretch Film

★ Superior Strength

High-end hand stretch film is a type of hand film that is designed to provide extra stretchability and support for packaged products

★ Cost Saving

Ultra-thin and easy stretch material with a maximum high-holding force, can help save your cost

★ Customer Satisfaction

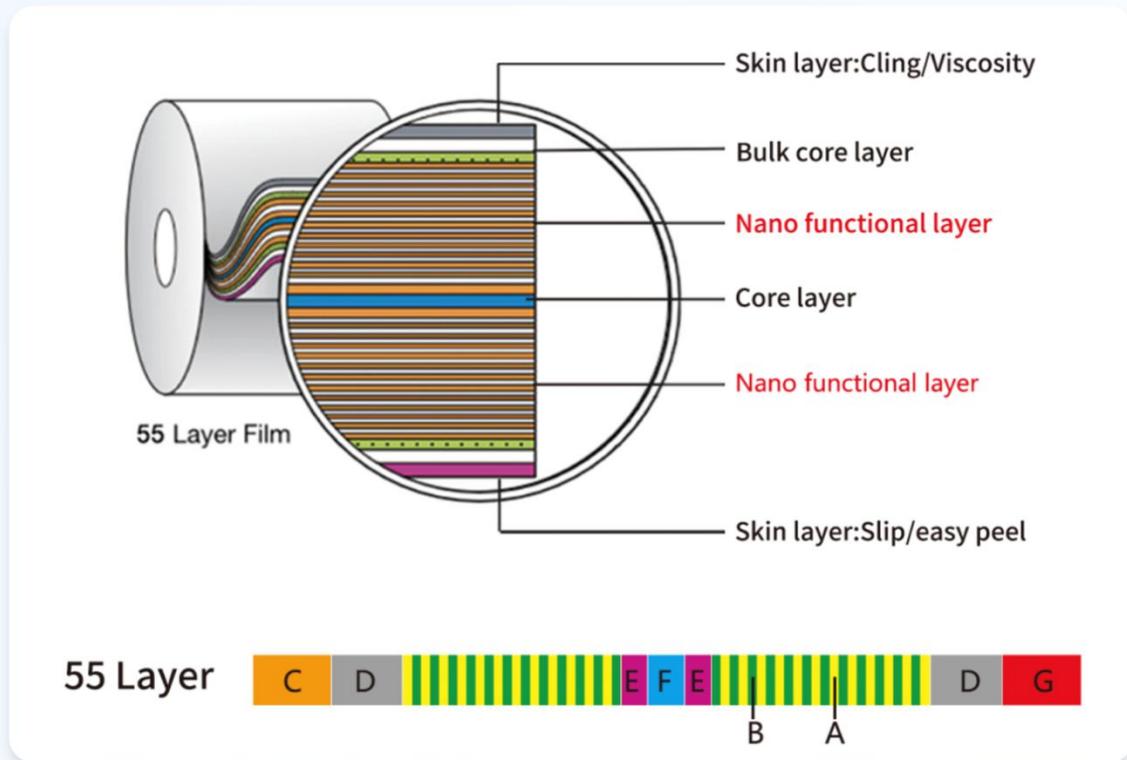

High-end stretch film, Ease of use, easy to pull by hand or dispenser. Easy operation, convenient

Hand-use stretch film Spec:

Colour	Thickness (Um)	Optimum Stretch (%)	Width(mm)	Length (m)
Clear	17	150~180%	500	400
Clear	20	150~180%	500	300
Clear	23	150~180%	500	300
Black	23	150~180%	500	300

Machine-Use Stretch Film

55-Layer Nano Stretch Film

★ High Stretch Performance for Maximum Cost Savings

Exceptional stretchability enables over 50% material reduction, significantly lowering packaging and plastic consumption costs

★ Thin, Durable Film with Superior Puncture Resistance

Lightweight yet strong, designed to withstand tears and punctures in demanding pallet wrapping applications

★ Excellent Grip for Secure and Stable Loads

Maintains consistent retention force to prevent load shifting and reduce transport-related damage

★ **Optimised for High-Speed Automated Wrapping**

Compatible with high-speed wrapping machines and produced using advanced W&H cast-line technology, ensuring consistent performance, smooth application, and reliable results in automated environments

Machine-use stretch film Spec:

Colour	Thickness (Um)	Optimum Stretch (%)	Width(mm)	Length (m)
Clear	15	280~300	500	2500
Clear	23	280~300	500	1420

Environment and Sustainability

Committed to Sustainable Packaging Solutions

★ **100% Recyclable**

Our pallet wrap (stretch film) is 100% recyclable. The used film can be collected and processed through standard recycling streams.

★ **Global Recycled Standard (GRS) 4.0**

Our manufacturing partner is audited and certified by Intertek under the Global Recycled Standard (GRS) 4.0, leveraging advanced technology, state-of-the-art equipment, and intelligent manufacturing to deliver high-performance industrial packaging solutions with consistent quality and efficiency.

★ **Verified Sustainable Production Processes**

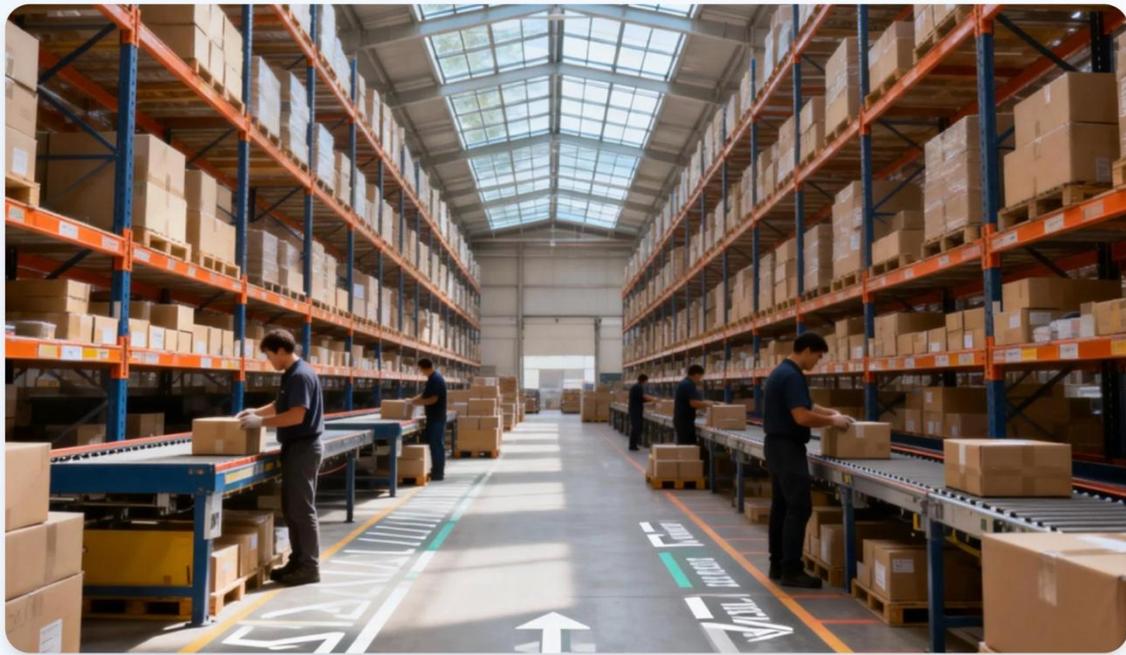

The certification covers the following categories:

Product Category: Packaging (PC0023)

Process Categories: Extrusion (PR0010), Moulding (PR0018)

Our Service

Exceptional Support and Quality

★ **Flexible MOQ**

Combine different roll types in one order

★ **Locally Stocked**

Fast delivery from our Mangere warehouse, Same-day delivery available across Auckland city area

★ **Dedicated Support**

Quick turnaround and personalized service

★ **Trusted Quality**

Performance proven in your on-site trial
